

Bhoompally Kalyan Reddy

AI DEVELOPER | FULL STACK DEVELOPER | SOFTWARE DEVELOPER | PUBLISHED RESEARCHER

Phone: +91-6305013340 | Email: prsnlkalyan@gmail.com | Location: Hyderabad, India
LinkedIn: linkedin.com/in/bhoompally-kalyanreddy | GitHub: github.com/kalyan-1845 | Portfolio: kalyanport.netlify.app

CAREER OBJECTIVE

Seeking a Software Developer Intern or AI Developer Intern position where I can apply my skills in Python, JavaScript, Generative AI, Large Language Models (LLMs), and Full Stack Development to build impactful software products. Eager to contribute to cross-functional teams using Agile methodologies while leveraging AI development tools to deliver production-grade solutions.

PROFESSIONAL SUMMARY

AI Developer and Full Stack Developer with 2+ years of hands-on project experience, currently pursuing Bachelor of Technology (B.Tech) in Computer Science Engineering at ACE Engineering College (2024-2028). Published researcher with a peer-reviewed paper in the International Journal of Advanced Research in Science, Communication and Technology (IJARSCT), DOI: 10.48175/IJARSCT-32733. Holds 14 professional certifications including Python Programming from Indian Institute of Technology Bombay (IIT Bombay) FOSSEE, Generative AI from OutSkill, and Claude AI from Anthropic. Architected and shipped 30+ AI-powered products. Secured Top 4 placement at Code Sprint Hackathon 2026 among 200+ participants. Proficient in leveraging AI development tools including Claude, Google Gemini, GitHub Copilot, Cursor AI, and Ollama as engineering force multipliers to architect, develop, test, and deploy software at 10x velocity. Strong problem-solving skills with a data-driven approach to development and cross-functional collaboration experience from hackathon teams.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, SQL, C++, Dart, HTML, CSS
Artificial Intelligence and Machine Learning: Generative AI, Large Language Models (LLMs), LLM Orchestration, Multi-Agent Systems, Retrieval-Augmented Generation (RAG), Prompt Engineering, Natural Language Processing (NLP), Optical Character Recognition (OCR), Speech Recognition, Text-to-Speech (TTS), AI Ethics
AI Development Tools: Claude (Anthropic), Google Gemini, Google AI Studio, GitHub Copilot, Cursor AI, Ollama, Grok (xAI), DeepSeek
AI Frameworks and Libraries: CrewAI, Ollama (Llama 3, Qwen, Gemma), Vosk, Piper TTS, Tesseract OCR, pdf-lib
Frontend Development: React.js, Next.js, Tailwind CSS, Framer Motion, Canvas API, Responsive Web Design
Backend Development: Python FastAPI, Flask, Node.js, REST API Development, Server-Sent Events (SSE), WebSocket
Mobile App Development: Flutter, React Native, Expo
Databases: SQLite, SQL, JSON Data Storage
DevOps and Tools: Docker, Docker Compose, Git, GitHub, Vercel, Netlify, Version Control, CI/CD
Soft Skills: Problem-Solving, Critical Thinking, Team Collaboration, Agile Development, Communication, Adaptability, Self-Learning

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering

ACE Engineering College, Hyderabad, Telangana
August 2024 - June 2028 (Expected)

- Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems, Software Engineering
- Published researcher in IJARSCT peer-reviewed international journal, March 2026
- Top 4 at Code Sprint Hackathon 2026 among 200+ participants
- Top 7 at KL University Inter-College Technology Hackathon
- Smart India Hackathon (SIH) participant, Lexicon Legends team

Intermediate (MPC)

Vijwala Junior College

SSC

Vidya Nikethan High School

EXPERIENCE

Founder and Lead Developer - AuraCore AI Command Center

Independent Software Product | Commercially Licensed
January 2026 - Present

- Architected and shipped a commercially licensed multi-agent AI orchestration platform used for enterprise knowledge management

- Led end-to-end product development lifecycle from system design to Docker-based deployment and distribution
- Managed product versioning through 5+ major releases, iterating based on user feedback and testing

Hackathon Competitor and Team Developer

Code Sprint Hackathon 2026 | KL University Hackathon | Smart India Hackathon
2025 - 2026

- Secured Top 4 out of 200+ participants in a 24-hour Code Sprint Hackathon by building a functional AI-powered prototype
- Collaborated in cross-functional teams of 4-6 members using Agile development methodology under tight deadlines
- Presented technical solutions to panels of industry experts and faculty judges at 3 national-level hackathons

Published Researcher and Co-Author

International Journal of Advanced Research in Science, Communication and Technology (IJARSCT)
March 2026

- Co-authored peer-reviewed research paper titled "Sarathi: A Smart Emergency Location Sharing And Navigation System"
- Implemented Haversine formula algorithm for real-time nearest hospital and police station discovery within 5km radius
- Designed system architecture projected to reduce emergency response times by 30% compared to traditional 100/108 systems

PROJECTS

AuraCore AI Command Center | Production v5.13 | Commercially Licensed

Python, FastAPI, Next.js, React, TypeScript, SQLite, Ollama, CrewAI, Docker, Tailwind CSS

- Architected multi-agent AI platform with 3 specialized agents (Strategist, Librarian, Synthesizer) processing 100+ queries daily in sequential orchestration pipeline using CrewAI framework
- Built Neural Trace visualization providing transparency into AI knowledge retrieval across 500+ trained documents via Retrieval-Augmented Generation (RAG)
- Engineered Universal Trainer file ingestion supporting 4 file formats (Python, JavaScript, PDF, TXT) for custom knowledge base training
- Implemented Neural Portability bridge enabling AI memory state export and import across machines, reducing setup time by 90%
- Designed enterprise licensing with trial keys, expiry enforcement, and Docker distribution with bytecode obfuscation
- Developed real-time Server-Sent Events (SSE) streaming for token-by-token response delivery with under 200ms latency

BKR 2.0 - Multilingual AI Assistant

Python, Ollama, Vosk STT, Piper TTS | github.com/kalyan-1845/frnd.ai

- Developed local-first multilingual voice and text AI assistant supporting 3 languages: English, Hindi, and Telugu
- Integrated Ollama LLM for 100% offline on-device inference, Vosk for speech-to-text, and Piper for natural text-to-speech
- Implemented adaptive tutoring capabilities for educational use with zero internet dependency

DocuShrink AI - Smart Document Processing Suite

React, TypeScript, Tesseract.js, pdf-lib | github.com/kalyan-1845/Data-Processing-System

- Created browser-based AI document platform with 10 integrated tools: PDF compress, merge, split, OCR supporting 13 languages, AI summarizer, and keyword extractor
- Built as Progressive Web App (PWA) with zero server dependency and 100% client-side processing for data privacy

AI Video Learning Platform

React Native, Expo, Python FastAPI, Ollama, FFmpeg | github.com/kalyan-1845/veovision_ai-video-studio---V1

- Developed cross-platform mobile app converting text topics into AI-generated educational videos with automated narration
- Integrated 4-stage pipeline: Ollama script generation, TTS narration, AI image generation, and FFmpeg video rendering

OmniAgent - Android AI System

Flutter, Python, Qwen, Gemma Local LLMs | github.com/kalyan-1845/android

- Built Android AI agent with on-device LLM inference using 2 models (Qwen, Gemma) with zero internet dependency

Avatar Stream Studio

JavaScript, Web Audio API, Canvas API, Vite | github.com/kalyan-1845/ai-avatar-studio

- Developed browser-based AI avatar studio with phoneme-driven lip sync and one-click video export

NeuralGuard - Cybersecurity Framework

C++, AI Threat Analysis | github.com/kalyan-1845/NeuralGuard

- Developed real-time AI-integrated threat detection engine analyzing 10+ threat patterns for phishing and malware

FlutterPOS - Enterprise Point of Sale System

Flutter, Dart, Material Design | github.com/kalyan-1845/Flutter-POS-System

- Built cross-platform POS with product catalogue, billing engine, and receipt generation supporting 3 payment methods (Cash, Card, UPI)

MenuFlow - Digital Restaurant Menu Platform

React, Node.js, Vite, WebSocket | github.com/kalyan-1845/smart-menu-app

- Created digital restaurant menu with real-time order tracking, QR-code sharing, and WebSocket communication

CERTIFICATIONS

1. **Generative AI Workshop** - OutSkill, February 2026
2. **Python Programming** - FOSSEE, Indian Institute of Technology Bombay (IIT Bombay), May 2025
3. **CEREBRO Gemini AI** - ACE Engineering College, 2025
4. **Smart India Hackathon (SIH)** - Lexicon Legends Team, 2026
5. **Introduction to Claude AI** - Anthropic, 2026
6. **Claude 101 Certification** - Anthropic, 2026
7. **IA Online Technical Training** - IA Online, 2026
8. **Journal Publication Certificate** - IJARST, 2026
9. **OutSkill Professional Training** - OutSkill, 2026
10. **Professional Achievement Award** - ACE Engineering College, 2026
11. **Technical Skill Assessment** - ACE Engineering College, 2026
12. **Advanced Technical Badge** - ACE Engineering College, 2026
13. **Core Competency Certification** - ACE Engineering College, 2026
14. **Specialized Technical Training** - ACE Engineering College, 2026

ACHIEVEMENTS

- Top 4 out of 200+ participants - Code Sprint Hackathon 2026 (24-hour event)
- Top 7 - KL University Inter-College Technology Hackathon
- FOSS Hack 2026 - Participated in India's premier open source hackathon
- KLH University - Presented project demo to faculty panel and industry experts
- Published Researcher - IJARST peer-reviewed journal (DOI: 10.48175/IJARST-32733)
- AWS Recognition - Faculty recognition for deploying web application on AWS cloud infrastructure
- 30+ Projects - Architected and shipped 30+ AI-powered projects across web, mobile, and desktop platforms

WORKSHOPS AND TRAINING

- Generative AI Workshop (2-Day) - OutSkill Platform, Vaibhav Sisinty, February 2026
- AWS Cloud Computing Workshop (2-Day) - ACE Engineering College, 2025
- Python Programming Workshop (3-Day) - ACE Engineering College, 2025
